

“Recently I was doing a home improvement project and found that I needed a pallet of an unusual size. I called Kentuckiana Wood Products and explained my situation to Mandi. Within a few hours, Connie, the company president, called me to say she thought she could solve my problem. The same day, she came up with the exact pallet I needed! When I visited Kentuckiana Wood Products to pick it up, I could tell the business is professionally run and saw that everyone there has a "can do" attitude. I can't imagine running into more helpful people anywhere, and I highly recommend them to anyone who values efficiency and exceptional customer service.”
