May 25, 2004

Ms. Connie Poole
Kentuckiana Wood Products, Inc.
PO Box 362
Jeffersonville, IN 47131

Dear Ms. Poole:

This letter certifies that the National Hardwood Lumber Association (NHLA) is an agency accredited by the American Lumber Standards Committee (ALSC) for auditing the wood packaging material (WPM) manufactured by Kentuckiana Wood Products, Inc. Kentuckiana has been continuously enrolled in the NHLA Heat Treatment program since February 5, 2004 and is authorized to use the NHLA/IPPC audit mark stamp number US-194.

The cases, pallets or crates stamped by Kentuckiana were produced in compliance with the requirements of the International Plant Protection Convention (IPPC) ISPM 15 Guidelines for Regulating Wood Packaging Material and the United States Department of Agriculture Animal and Plant Health Inspection Service (APHIS) that were in effect at the time of manufacture. (Acceptability of ISPM 15 compliant WPM is at the discretion of the National Plant Protection Office of the importing country. US exporters are urged to check the applicable regulations at the time of export at <http://www.ippc.int/IPP/En/nppo.jsp>)

Audited records indicate that the WPM components used by Kentuckiana Wood Products were heat treated to core temperatures of 56 degrees C for 30 minutes. If additional information is required concerning audit stamped heat-treated wood packaging material manufactured by Kentuckiana, please contact NHLA.

Sincerely,

Dusty Moller
Technical Services Director
