Subject: Thanks You

-- Part: 1.1 --  
Morning,,

Please pass my sincere gratitude to all involved with the manufacturing of (2) export skids. Our customer required an extremely fast response in order to send a special shipment of steel blanks to Japan for emergency trials. Voss Clark was able to meet our customer goals because of the support of our suppliers such as Kentuckiana Wood Products. At Voss Clark we try every day to provide our customers with Superior Quality & Superior Service (SQSS). This is only possible through the support of loyal and trusted suppliers such as yourselves.

It takes months to find a new customer and only minutes to loose one. Voss Clark realizes we have nothing more to offer our customers than superior service & quality; therefore, we are truly thankful for your team's efforts over the past 24 hours.

Again Voss is only as good as our associates and the suppliers that support us or that we surround ourselves with. Attached is a copy of the purchase order.

Many thanks for all your efforts!

Respectfully,

Larry F. Marko
